

DOUBLE CHANNEL LOOP DETECTOR

PD232

6 Features

- **Industrial grade design**
- **4 sensitivity levels adjustable.**
- **Supports multi output ports**
- **Fault self detected function**
- **Realized barrier close automatically after car pass**
- **Supports to connect 2 loops, distinguish drive direction**

Technical Data

Device Name	Loop Detector
Model	PD-232
Loop quantity	2
Output port	2pcs relay
Output signal	Exist, pulse
Frequency adjustment	4
Sensitivity levels	4
Output delay	No
Dimension	78*40*108mm
Working voltage	230V AC , 115V AC, 24V DC/AC, 12V DC/AC
